
FOR IMMEDIATE RELEASE**May 16, 2020 Hazardous Household Waste Event Canceled**

ARKADELPHIA, Ark. (May 4, 2020) – The Spring Hazardous Household Waste event that was scheduled for May 16, 2020 has been canceled, due to health concerns regarding COVID-19. The SWCRSWMD will continue with the Fall Household Hazardous Waste Event on October 17, 2020.

The Southwest Central Regional Solid Waste Management District (SWCRSWMD) is the planning board that oversees solid waste management for Clark, Garland and Hot Spring Counties. In previous years the SWCRSWMD has hosted two annual Household Hazardous Waste Events. These events were developed with the intention of providing citizens of each county with the opportunity to dispose of hazardous waste that sanitation departments can not pick up on routine trash pick up.
